

**China Holiness College**  
**Welcome speech for the Visit of Wycliffe Christian School**

20170331

Dear all,

It's my honor to have you all travel a long way from Australia to Hong Kong and visit our school CHC every year. Today we will have worship, sharing, activities, lunch and city tour together. Our school district, Shamshuipo, is the poorest district in Hong Kong. When you have the opportunities to walk around the area this afternoon, you will notice that it is very special place. Many foreigners love to explore this district. I hope you enjoy today's experience.

I like travelling to different countries because it expands my horizon. When I go to a new country, I recognize people, language, places, things and living style, etc., are very different from what I experienced in Hong Kong. I can expand my knowledge and experience. I will learn from the difference. The same is for today's experience. You all come from Australia and we from HK. We have different educational background and culture. I am sure we will learn from each other. I encourage all of you in future to travel to more countries and hope we all develop ourselves as global citizens.

Thanks once again all of you come to our school. I hope you will enjoy today's visit and will come to HK once again. May God bless you all.

Lydia Tso  
Principal of China Holiness College
